

BERKELEY SQUARE UPDATED VISITATION GUIDELINES

July 16, 2021

Dear Residents & Families,

We are excited to continue to ease restrictions on campus, enjoying your visits and getting back to activities and socialization. Thank you for your continued adherence to our visitation guidelines.

Following Ohio Department of Health guidelines, in August we will begin to resume operations of our wellness center and on-site restaurant. Visitors to Elements or The Woods at Coach House are encouraged to use the direct entrances to these locations. Visitors may also enter our campus using the Main Manor House entrance that resident guests use, following the same safety protocols. All guests entering our main building are required to SIGN IN and complete a SELF SCREENING every time they enter the community. ALL visitors must wear a mask in the main building, and travel directly to their destination.

We look forward to welcoming guests safely back to our campus next month to enjoy Elements Wellness Center and The Woods at Coach House. Due to our vaccination efforts and infection prevention controls, we have not had any active resident or staff COVID cases on campus. We are confident that we may expand access to Elements and Woods at Coach House while maintaining the safety of our campus.

PLEASE CONTINUE TO HELP PROTECT THE SAFETY OF OUR CAMPUS

We are excited to continue to ease visitation restrictions, taking this next step toward resuming operations. HOWEVER, everyone must work to protect the safety of our campus. According to Ohio Department of Health Regulations, if we have ONE COVID-positive resident or employee case in our building, we are required to pause all visitation until 14 days following the conclusion of the active case. Please DO NOT visit our campus if you are unwell or experience any signs or symptoms of COVID-19 listing in the self screening guidelines above.
