

Classroom Times

April 2024

Mrs. Lampe, Mrs. North, Mrs. Meyer, Mrs. Maccio

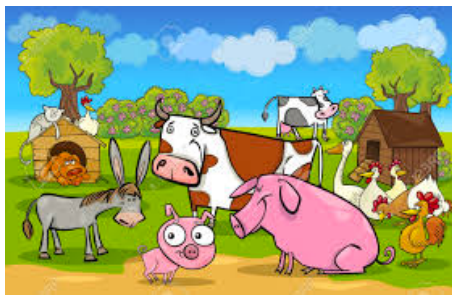

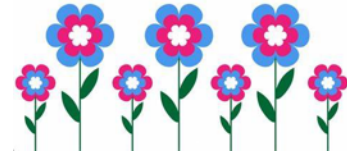

Dear Parents,

Spring is here! We are excited to finally be seeing some warmer weather! When we return from Spring Break we will study all kinds of animals both on the farm and at the zoo. We will also be studying plants and "hatching" butterflies in our classrooms! Ask your child to tell you about the life cycle of the butterfly. And we will be learning about the letters W, V, Y and X. Keep an eye out for the Mystery Bags to come home!

Dramatic Play

We'll continue to "cook up" delicious spring meals served on decorated tables complete with flowers. Feel free to dress up in farm attire when we study the farm and farm animals!

Art

We will add "spring things" to our art center, such as pastel tissue paper, watercolors, pipe cleaners, spring stickers and much more! Some of the children will also be painting with real mud and making a farm mural.

Science Center

Science Center will be full of all kinds of animals this month. We will have zoo animals and then farm animals the following week. What do these animals eat? What sounds do they make? Where do they live? We will learn all about them in April!

School Closed

Spring Break - April 1st - 8th
