

Preschool Classroom Times

February 2025

Ms. Suttmiller & Mrs. Seals,
Mrs. Watson & Mrs. Schubert,
Mrs. Honchell

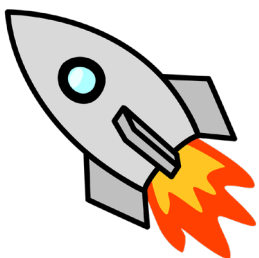

February is going to be a fun and exciting month in preschool! We will learn about Dental Health, celebrate Valentine's Day, honor our nation's presidents and explore space! We will have Nurse Dees visiting to teach us about germs and how to keep them away!

Art

The art center will be filled with hearts, stamps, and pink and red

paper to create beautiful valentine masterpieces for those we love! We'll also add Popsicle sticks to art so we can create trees and cabins, just like Abraham Lincoln's! We can't wait to make our own rocket ships as we pretend to blast off into outer space!

Sensory

Our sensory tables will be filled with red white and blue strips of paper to practice our cutting skills

Discovery

We will be using our magnifying glasses in our discovery centers to get a better look at our nation's presidents on our currency! In Ms. Suttmiller's class, the Discover Center will also transform into a NASA training center.

Preschool Prom

Our Preschool AM classes will be joining together for our first ever Preschool Prom! This event will take place during our Valentine's Day party.

Remember we are closed on Monday,
February 17th for President's Day!
