

# Classroom Times

April 2025

**Mrs. Meyer & Ms. Miller**  
**Mrs. Honchell & Mrs. Stempfley**  
**Mrs. Maccio**

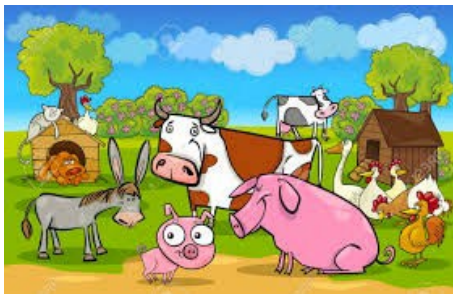

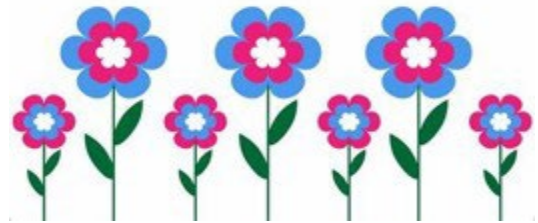

Dear Parents,

Spring is here! We are excited to finally be seeing some warmer weather! We will study all kinds of animals on the farm. We will also be studying plants and "hatching" butterflies in our classrooms! Ask your child to tell you about the life cycle of the butterfly. And we will be learning about our last 4 letters W, V, Y and X. Keep an eye out for the Mystery Bags to come home!

## Dramatic Play

We'll continue to "cook up" delicious spring meals served on decorated tables complete with flowers. Feel free to dress up in farm attire when we study the farm and farm animals!

## Science Center

Science Center will be full of all kinds of animals this month. We will learn about farm animals and Easter than roll into plants and end the month with butterflies. What do these animals eat? What sounds do they make? Where do they live? We will learn all about them in April!

## Art

We will add "spring things" to our art center, such as pastel tissue paper, watercolors, pipe cleaners, spring stickers and much more! Some of the children will also be painting with real mud and making a farm mural.

**School Closed**  
**Spring Break**
