September 2026

WELCOME SEPTEMBER

Welcome to our school! We're excited to get to know your child and introduce them to their classmates and classroom. We'll be learning about our classroom rules and routines. Please remember to send your child to school with his or her name tag every day. The day he or she comes home without it on, is the day we've mastered it.

ART

This month we will be focusing on cutting, colors, appropriate use of our materials, and most of all how to express ourselves at the art center. Some of the activities we will be working on are self-portraits and free drawing.

BOOKS WE ARE READING

The children love to listen to stories read aloud to them. Our strong emphasis on literacy helps develop your child's emergent reading skills. Our books this month will include books about going to school, myself and what makes us unique, families, and pets.

DRAMATIC PLAY

This area of our room is always a favorite place for the children to gather and express themselves through pretend play. They love playing many different kinds of roles together from restaurant workers to mommy and daddy. This is a great place for children to explore language and good communication.

THINGS WE WILL LEARN ABOUT

For some of us we are returning to school, but for some of us it is our first experience away from our families. We will be learning how to play with others, classroom rules, and setting routines. We will also be sharing pictures of our own families to get to know each other better. We'll end the month learning about pets, how to take care of them, and we'll share a bit about the pets in our homes.

TOYS AND GAMES

The children love this center! It is full of puzzles, magnets, Legos, animals, and cars. This center allows your child to explore spatial relationships as well as connect experiences that they will remember for a long time. It is exciting to see what the children come up with as they play with these toys. This center really helps them use their imagination.
